**Final Office Action on the Merits of a Continued Prosecution Application**

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

***Claim Rejections - 35 USC § 112***

2. Claims 1-38 are rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

The instant claims recite a “method of selecting a treatment”, however, the specification does not describe a selection process. The specification disclose a method of treating an immune-mediated disorder utilizing a combination of a gold compound and at least one corticosteroid, the corticosteroid is selected to interact with the gold compound to exhibit preferential synergistic action towards one of the components of said disorder (see for example page 3, lines 12-31).

The examiner notes applicant’s argument that the specification provides support for said amendment. However, the pages and lines of the present specification indicated by applicant provide support for a method of treating an immune-mediated disorder and not a method of selecting a treatment for an immune-mediated disorder as recited by the claims as amended.

4. The rejection of claims 1-5, 7-8, 11-15, 18, 21, 22, 27 and 29-37 under 35 USC 102(b) over Papandrea (US 5,527,779) is withdrawn in view of applicant's amendment.
